

Sébastien M. R. Arnold

arnolds@usc.edu, www.seba1511.com

Education

University of Southern California August 2017 - Present

Ph.D. Computer Science

Under the supervision of Prof. Fei Sha. Research topic: Optimization and Reinforcement Learning.

University of Southern California August 2014 - August 2017

BS. Computer Science & BA. Mathematics (with honors)

CS honors society member & Society of Women in Engineering member.

ETH Zürich September 2011 - August 2013

BS. Computer Science (dropout)

German-based instruction, advanced class in parallel and distributed computing, machine learning project with Yuxin Chen, PhD student of Prof. Andreas Krause.

Stanford University June 2011 - August 2011

High-School Summer Semester

Opportunity for high-school students to take undergraduate classes.

Gymnase Auguste-Piccard August 2008 - August 2011

Maturité Fédérale

High-school degree, with an emphasis on Mathematics and Physics.

Research Experience

Theoretical and Empirical Data Science Lab - USC August 2017 - Present

Doctoral Student - Advisor: Prof. Fei Sha

Research topic: Optimization and Reinforcement Learning.

Brain-Body Dynamics Lab - USC July 2016 - August 2017

Undergraduate Researcher - Advisor: Prof. Francisco Valero-Cuevas

Investigating deep reinforcement learning algorithms for simulated, robotic, and cadaveric hand control.

Simulation and Modelling Lab - USC**April 2016 - August 2017****Undergraduate Researcher - Advisor: Prof. Chunming Wang**

Investigating second order optimization methods for distributed deep learning.

Information Science Institute - USC**January 2015 - December 2015****Research Assistant - Advisor: Prof. Greg Ver Steeg**

Research in quantum optimization of Ising models, and quantum machine learning within the group of Prof. Dr. Daniel Lidar.

Computational Social Science - ETHZ**June 2012 - January 2014****Research Assistant - Advisor: Dr. Stefano Balietti**

Development of sociological experiments with JavaScript and PHP. Project received appraisal from the European Commission and fundings for coming years.

Industry Experience**Nervana Systems****August 2015 - August 2016****Algorithm Intern - Advisor: Dr. Arjun Bansal**

Development of distributed deep learning library and project in distributed deep reinforcement learning.

Schneeberger AG**May 2014 - November 2014****Lead Developer**

Development of a financial management tool for an international usage. Engineering leader in a team of 4.

Tooski**January 2009 - Present****Founder**Development of the leading French-speaking skiing website, and its magazine *Angulation*.**Writings****Writing Distributed Applications with PyTorch** S. Arnold, 2017, PyTorch Tutorials**Shapechanger: Environments for Transfer Learning** S. Arnold, T.K. Pun, T.J. Denisart, F.J. Valero-Cuevas, 2017, SoCal Robotics Symposium**Accelerating SGD for Distributed Deep Learning Using an Approximated Hessian Matrix** S. Arnold, C. Wang, 2017, ICLR Workshop

A Performance Comparison between TRPO and CEM for Reinforcement Learning *S. Arnold, E. Chu, F. Valero-Cuevas*, 2016, SoCal ML Symposium

A Greedy Algorithm to Cluster Specialists *S. Arnold*, Technical Report, 2016, Arxiv Preprint

Awards

- **USC Undergraduate Research Project**: 2nd Place in Mathematics, Physics, and Engineering
- **David Wiesen Scholarship**: 2016
- **USC Summer Undergraduate Research Fellowship**: 2016
- **Microsoft Tuition Scholarship**: Finalist, 2016
- **USC Academic Achievement Award**: 2015, 2016
- **USC Provost Research Fellowship**: 2015, 2016
- **USC Dean's List**: 2014, 2015, 2016
- **HackSC Winner - Microsoft Category**: 2014

Languages

- **Bilingual**: French, Italian
- **Proficient**: English, German
- **Basic**: Spanish

Interests

- **Ski**: Throughout my highschool and part of my university studies, I was lucky to race across the Alps on the FIS circuit with the best regional Swiss skiers. This longstanding passion spawned Tooski, and I was once ranked among the best 2'000 racers worldwide.
- **Mathematics**: I am generally interested in mathematics, and more specifically in optimization and stochastic models. I like to apply them to all kinds of problems, especially the ones related to artificial intelligence.
- **Computing**: I have been programming since the age of 14, and have studied different computational hardwares such as GPUs, D-Wave, and HPC Clusters.
